USEFUL INFORMATION

Acrylic baths

Reflectivity of materials may vary, in some light conditions the white may look a little different.

Beerwell LOGO

Registered

TAPS & SHOWER VALVES

Beerwell taps are designed to be compatible with UK and European sanitaryware and baths. Any basin mixer will be suitable for any basin, the few exceptions to this rule will be highlighted in the directory section.

The majority of Beerwell taps and shower valves have been engineered to operate on low pressure making them compatible with all UK plumbing systems. The minimum operating pressure for each tap and shower valve is stated in the directory for you to confirm compatibility with your installer.

Measuring tap spout projections Spout projection measurements refer to the dimension from the centre of the body to the centre of the spout.

BRASSWARE FINISHES

Chrome is an extremely durable plated finish which is applied to a variety of fittings in a consistent manner and features a 5 year guarantee. Special finishes, including Gold and other kind of color, are more delicate so when applied to high use fittings such as taps and showers, or a plated finish we use on shower kits, hoses and accessories, feature a 3 year guarantee only.

Close inspection may show some colour variation which is normally acceptable given the relative distance between individual fittings when installed.

BEERWELL BATHROOMS GUARANTEES

At Beerwell Bathrooms, we want to make things as easy as possible for our customers. That's why we design products that are easy to fit and use, and that are quality tested to make sure they won't let you down. It's also why we offer solid guarantees, effective from the date of purchase, so that in the unlikely event of something

going wrong, you have the peace of mind that the problem will be sorted easily.

All of our products are covered by a guarantee. Most include both parts and labour (so we'll send an engineer to fix the problem as part of the warranty). Please note that guarantees are only valid with proof of purchase.

Our guarantees apply to products in domestic use. Any products in commercial use carry a guarantee of 1 year.

Cleaning Taps, Showers AND WASHSTANDS

Do's

if limescale needs to be removed, do use a solution of 50% water, 50% vinegar,
On special finishes do use a silver polish and tarrish guard for additional protection

Don'ts

Do not use corrosive and abrasive clearing products
Don't use bleach

Accessories care

Do's

Do avoid prolonged contact with water and dry after use

Don'ts

Don't use abrasive or corrosive cleaning products

Cleaning Acrylic Baths

Do's

Do wipe over with a damp cloth regularly .
Do dry the area around the plughole.
Do take extra care with special finish bath.

Don'ts

Do not use abrasive chemicals as it may scratch the gloss finish.

* **Our company policy is one of continual improvement and development.**

* **We therefore reserve the right to alter materials and specifications without notice**
